Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 10 and 12, drawn to DNA, classified in class 536, subclass 23.1.
 - II. Claims 6-9, drawn to plants, classified in class 435, subclass 419.
 - III. Claims 11, and 13-16, drawn to polypeptides, classified in class 530, subclass 350.

2. The inventions are distinct, each from the other because of the following reasons:

Invention I, drawn to DNA molecules and Invention III, drawn to polypeptides are distinct since they are products with different structure and biological properties. The polypeptide is made of amino acids whereas the claimed nucleic acid is made of nucleotides. Further methods known in the art used to make the polypeptide require different reagents and parameters from the methods of making DNA encoding the protein and the method of making the polypeptide does not require the DNA. For instance, the protein can be made by Merrifield chemical synthesis or affinity chromatography.

Invention II, drawn to plants, is distinct from Inventions I and III, since it is a living organism.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their separate classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1645

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Navarro whose telephone number is (703) 306-3225.
